Giving Help.....Giving Hope

Psychiatric Nurse Practitioner: Adult Inpatient Unit

River Park Hospital, in partnership with a Regional Medical Center located in Huntington, West Virginia, is currently recruiting for a Psychiatric Nurse Practitioner for a 40-bed Adult Inpatient Unit. Our company, PSI, is committed to quality, innovation, and clinical excellence. We seek individuals who share our values, integrity, passion for their work, and commitment.

The Nurse Practitioner will be responsible for:

- providing direct patient care as prescribed by the physician
- directing the implementation of behavior management programs
- performing physical exams on new admissions or authenticate previous medical history as necessary
- evaluating, diagnosing
- treating illness and injuries occurring in patients within scope of practice
- treatment and discharge planning
- limited on-call responsibilities

We offer an excellent salary and benefits to include: Generous paid time off, Company sponsored health, life, and disability, Paid malpractice, and much more.

Requirements

Requirements Nurse Practitioner requirements:

- Interested candidates must have a minimum of one year experience in a clinical setting
- preferably one year of psychiatric experience with adults and/or geriatrics
- Candidates must also be licensed in the State of West Virginia, or licensed eligible
